

**COSTA RAGUSA BORGO & RESORT:
OPENING SUMMER 2026 AND LAUNCH OF THE RECRUITMENT CAMPAIGN**

Over 500 positions open for the major hospitality project that celebrates talent and supports the economic development of Southeastern Sicily.

Ragusa, 29 October 2025 – Arrow Global Italy and Mangia's Hotels & Resorts today announced the **opening of Costa Ragusa Borgo & Resort in Summer 2026**, during an institutional press conference attended by company executives and local authorities at Palazzo La Rocca, in the heart of Ragusa.

The resort — the result of an investment made in 2024 by Arrow Global Italy, the Italian platform of Arrow Global Group - a leading European investment manager in **real estate and private credit** - in partnership with **Mangia's**, a leader in the Italian hospitality sector — will lead to the **creation of over 500 new jobs**, with dedicated training programs aimed at developing a new generation of Mediterranean hospitality professionals, true ambassadors of authenticity and elegance.

This initiative represents a **tangible investment in human capital**, designed to generate both employment and social value across the region. The large-scale **recruitment campaign** will be launched with the support of **Gi Group**, one of Italy's leading employment agencies.

Donato Piscuoglio, Head of Real Estate Italy, Arrow Global Italy, stated:

“With the Costa Ragusa project, we are giving shape to a vision that goes beyond a single real estate investment. Our goal is to create lasting value for the region by generating qualified employment and enhancing Sicily's natural and cultural excellence. Costa Ragusa is conceived to become an internationally recognized destination — a new benchmark for Mediterranean tourism — combining authenticity, luxury, and sustainability. It represents a key milestone in our strategy to build an integrated and de-seasonalized hospitality platform, positioning Italy as one of Arrow Global's pillars of growth in the sector.”

Marcello Mangia, President & CEO of Mangia's, added:

“Costa Ragusa Borgo & Resort represents a groundbreaking project for Italian hospitality and a true driver of local development. Thanks to the collaboration with Arrow Global Italy, our strategic partner with whom we share a long-term, sustainable vision, we have been able to create an ambitious initiative that enhances the territory and amplifies its growth opportunities. Our goal is to create qualified employment, promote local talent, and redefine the standard of luxury hospitality across the Mediterranean. This project is born from the synergy of capital, expertise, and vision — to build an authentic, sustainable, and future-oriented tourism model.”

With Costa Ragusa Borgo & Resort, the partners involved are committed to generating a positive and lasting impact on the region, with the goal of ensuring that at least 70% of the workforce will come from Sicily. This project enhances the local value chain — from human capital to agri-food production — promoting a model of sustainable and shared development.

Arrow Global Italia
